

TVNEWSLIES LAUNCHES [**OPERATION AMERICAN FREEDOM!**]

A STRATEGY FOR THE 2004 PRESIDENTIAL CAMPAIGN

<http://tvnewslies.org>

You can almost smell it in the air. This one is different. This is one has something very special about it. In fact, no other presidential election in our time has been quite like it. There's a healthy array of candidates, but we're not really arguing about them. There's a wide range of issues, but we're not really debating them. Instead, throughout the nation, for the first time ever, there's an undercurrent of unparalleled alarm. This time it's about our future and the fate of our country. This time it's more than simply a campaign for the presidency. This time, we simply cannot lose. This time, it's war!

We the people are angry, and we the people are frightened. We watched in disbelief as the nation was craftily wrested from our grip in these three short years. We watched as a small group of men lied and deceived the nation into waging a bloody and endless war. We watched as they enriched themselves and their cronies while placing the rest of us in an environmentally unsafe, economically perilous, and globally discredited position. This time, we have no choice but to unite and take back our country. This time, it has to be war.

We know for certain that the single most destructive element in our lives at the moment is the man in the White House. And we know for certain that he has to go. We cannot afford the luxury of considering the alternative as we arm ourselves for the battle ahead. This time there is no other option but to defeat the most arrogant, most secretive, most dishonest and most dishonorable incumbent president in recent history. This time, we have to liberate our own people from the yoke of neocon and extreme right wing ideology. This time, we must wage a concerted and focused war.

Welcome to **OPERATION AMERICAN FREEDOM!**

THE TVNL "WAR" PLANS

1. **OUR WEAPONS ARE NON-LETHAL** : They are all our thoughts, our ideas, and our collective ability to share our views, and the truth. The Bush administration, with the complicity of the media has consistently and expertly withheld the truth from the public. We will “shock and awe” the uninformed. We will spread the word with facts and documentation and evidence. If the people know, they will share our outrage.

2. **OUR GOALS ARE ATTAINABLE**: To liberate the American people from:

- the lies and deceptions of elected leaders
- illegal and immoral wars waged in our name
- being blinded by the mantra of “terror”
- the evisceration of the Constitution
- the usurpation of the American flag by one party
- the suppression of dissent in the name of patriotism
- the PNAC agenda of global military domination
- a foreign policy of “might makes right”
- the mistrust and disrespect of the global community
- the enrichment of the military industrial complex
- legislation that surreptitiously enriches special interests
- sacrificing the lives of brave military men and women to PNAC greed
- a secretive shadow government that governs by intimidation and fear
- an administration that refuses to be held accountable for its misdeeds
- a depleting economy and an outrageous deficit
- disastrous environmental policies
- limitations on stem cell research
- assaults on a woman’s right to choose
- outrageous health care and prescription costs
- right wing activist appointments to the federal courts
- ultra conservative appointments to the Supreme Court
- the neglect of our veterans and their needs
- the narrowing gap between Church and State
- a divisive and polarizing president
