

The most insidious enemy of the Constitution is the private moneychanger and its misuse of our security assets, military and police agencies. Never have we witnessed such blatant and relentless assaults on our Constitution, and the moneychangers are central to those assaults. The first major congressional assault was the secret Christmas holiday passage of the Federal Reserve Act of 1913. These assaults are directed to serve private interests, not the common citizen.

The threat posed by Saddam Hussein was his intention to trade Iraq's oil, not in petrodollars, but in Eurodollars. This threat was the real justification to deploy our military. Sales pitches such as "spreading democracy" and the security of Israel were widely promoted by the private news media, but Saddam's Eurodollar threat was the clincher. Similarly, that same media is now claiming that Iran is working on WMDs and poses a threat to nuclear-armed Israel. But also not widely publicized is the Iranian oil trades in Eurodollars. Reduction of the hegemony of the Federal Reserve and petrodollars is regarded as the true threat. Is there a pattern here?
