

The most dominant country behind the agenda of Codex is the United States whose sole purpose is to benefit multinational interests like Big Pharma, Big Agribusiness, Big Chema and the like. At the latest meeting in Geneva, the U.S. recently became the chair of Codex which will facilitate an exacerbation of the distortion of health freedom and will continue the promulgation of misinformation and lies about genetically modified organism (GMOs) and nutrients while fulfilling the tacit population control agenda. The reason the U.S. continues to dominate Codex is because other countries falsely believe the U.S. possesses the latest and greatest safety technology when it comes to food and hence, whatever the U.S. asks for, its allies (E.U., Argentina, Brazil, Canada, Mexico, Australia, Malaysia, Indonesia, Japan, Singapore) follow suit nearly every time.

Many of the countries who wish to participate and want to voice their opinions are not allowed to attend the Codex meetings as the U.S. denies most visas for these representatives whenever they feel like it. Many of these countries (South Africa, Swaziland, Kenya, Ghana, Egypt, Cameroon, Sudan, Nigeria) realize that Codex has been altered from a benevolent food organization to one that is fraudulent, lethal and illegitimate. The fact that Codex meetings are held all over the world is also no accident and allows the U.S. to maintain its tight grip on the Codex agenda as the less economically viable countries are not able to attend.
