

Those documents were obtained today by The Washington Independent and are available here.

Strikingly, they provide little evidence for Cheney's claims that the "enhanced interrogation" program run by the CIA provided valuable information. In fact, throughout both documents, many passages — though several are incomplete and circumstantial, actually suggest the opposite of Cheney's contention: that non-abusive techniques actually helped elicit some of the most important information the documents cite in defending the value of the CIA's interrogations.
