

CREW documents the state of affairs in our new report, Record Chaos: The Deplorable State of Electronic Record Keeping in the Federal Government, concluding that the federal government is severely mismanaging its electronic records. "Record Chaos" is based on months of research and the results of an on-line survey. Released today, the full report and its findings and recommendations are available [here](#) .

TVNL Comment: This is by design. We have the most criminal administration in history and they are working very hard to make sure there is little evidence of their crimes. From stolen elections to the attacks of 9/11, the Bush administration has to cover their tracks.
